

Recent studies show that elderly clients in need of supervision not only prefer the familiarity of a home environment to being institutionalized, but respond better to care at home. More than anything, it helps them maintain their dignity.

Provided Services:

- Comfortable room and board.
- Three delicious, nutritious meals and snacks daily.
- Housekeeping
- Laundry
- General supervision
- Health monitoring
- Transportation to appointments
- Ambulation

A personal message from...

Shiela

I'm a Certified Nursing Assistant, with extensive experience in special needs elderly care, with special emphasis in memory impaired individuals. I've cared for individuals in private settings, nursing homes and retirement facilities.

Because I love what I do, I decided to open my home to care for the elderly. My mission is to provide the highest quality, gentle care to my residents.

I provide something that most retirement facilities fail to provide their residents, one-on-one, personal, loving care in a comfortable home environment. You can rest assured that your loved one will be tended and assisted daily, with personalized attention and care. While your loved one is in my care, I prompt independent daily activities, self-esteem, and happiness.

Coming from the Philippines, it is an honorable part of my culture to provide respect, special care and dignity for our elders. My promise is to provide the same care and respect to your loved one, as they will become part of our family.

We welcome your loved one into our home, a 4200 sq. ft. private living facility, inviting them to celebrate life in a wonderfully close-knit family and circle of new friends.

The opportunity for a lifestyle unlike any other presents itself with spirit and serenity.

*Thoughtfully planned in every detail, **Shiela's Home Care** gives your loved one a sense of place, with a wealth of amenities, beautiful scenery, swimming pool, books, and games.*

This cozy, secure home has it all. Nestled among tropical flora, inside a securely gated community in Pasco County, our home offers the ideal setting for the comfortable, quality life you want for your loved ones, among nature, beauty, friends, and qualified, caring individuals.

Staff

All staff members are highly trained individuals, with extensive experience in elder care, and provide your loved one with personalized, loving-care 24/7.
